FOR IMMEDIATE RELEASE

FIRST STEPS EARLY LEARNING CENTER HELPS MARCH FOR BABIES

May 12, 2012 - Since opening in 2007, First Steps Early Learning Center has been helping children in their academic, social, physical and emotional development aged 6 weeks through 5 years old. They have also been active in their community by supporting the March of Dimes through annual donations and walking with their staff at the March for Babies Walk in Boston annually. First Steps has continuously raised funds to support the March for Babies and this year they have raised over \$400 for this cause.

We believe every little bit helps. We are making a difference in the lives of children, one step at a time!
